- Primary Cementing
- Secondary Cementing
- Gravel Pack
- Chemicals Stimulations
- High, Medium and Low Pumping Services
- Fluid Filtration
- Fluid Transportation and Storage
- Drilling Fluid and Cementing Slurry Design
- Drilling, supply and maintenance of water wells
- Drilling, supply and maintenance of oil and gas Wells
- Connection of Surface Wells.
- Well Testing.

TECHNOLOGICAL INNOVATION

It is not simply about chemical products and additives. It is about the reaction and combination of independent compounds to create an innovative product. This is the way DENARIUS PUMPING SERVICES works with the companies it serves.

We not only supply drilling fluids and cement slurries; We work with you to develop new ways to improve processes, meet environmental goals, and reduce production costs.

- Retarders and Accelerators
- Filtering Drivers
- Dispersants
- Anti-Foaming
- Anti-Migratory / Expansive
- Solid Sustainers
- Spacers, Surfactants and Washers
- Controllers for Fluid Loss and Gas Migration
- Stamina Enhancers
- Corrosion Inhibitors
- Gelling Agents
- HCL stabilizers
- Clay Stabilizers
- Mutual Solvents
- Divergent Agents and Blockers
- Additives Special Conditions:
- Thermal Grouts
- Water Cut Treatments
- Drilling Mud
- Chemicals and Additives for the Oil Industry

ENGINEERING, PROCUREMENT AND CONSTRUCTION

- Tanks, Pipes, Silos Construction and Corrective Maintenance of Petroleum Equipment.
- Flotation equipment.
- Well Head and Control Equipment.
- Gaskets and Control Valves.
- Drilling Fluids and Chemical Additives.
- Synthetic gravel.
- Electrosubmersible pumps.
- Progressive Cavity Pumps.
- Suction Rods.
- PCP Drive Head.
- Variable Frequency Drive.
- Diesel Engines and Accessories.
- Mud Pumps, Centrifugal Pumps and Triplex Pumps.
- Hydraulic Components.
- Instrumentation Equipment for Tumblers.
- Electrical Materials for Tumblers.

DENARIUS, a product of many years of experience in the Oil Industry, has established strategic and commercial alliances with manufacturers and distributors of the best known international brands in oil equipment and tools, certified by the American Petroleum Institute (API), allowing us to provide equipment, materials and tools for the oil industry with the highest standards of quality and service.

TRADE AND SUPPLY

DENARIUS PUMPING SERVICES DE VENEZUELA C.A. ("DPS"), remains at the forefront and the generation of value of all the businesses that it encompasses.

Product of 27 years of experience in the oil industry, DENARIUS PUMPING SERVICES DE VENEZUELA C.A. ("DPS"), has developed commercial alliances to provide a fundamental link between the market and brokers, producers, refineries, tanker companies, and shipping companies. We provide commercial support to crude oil and natural gas production operators and refining and marketing networks.

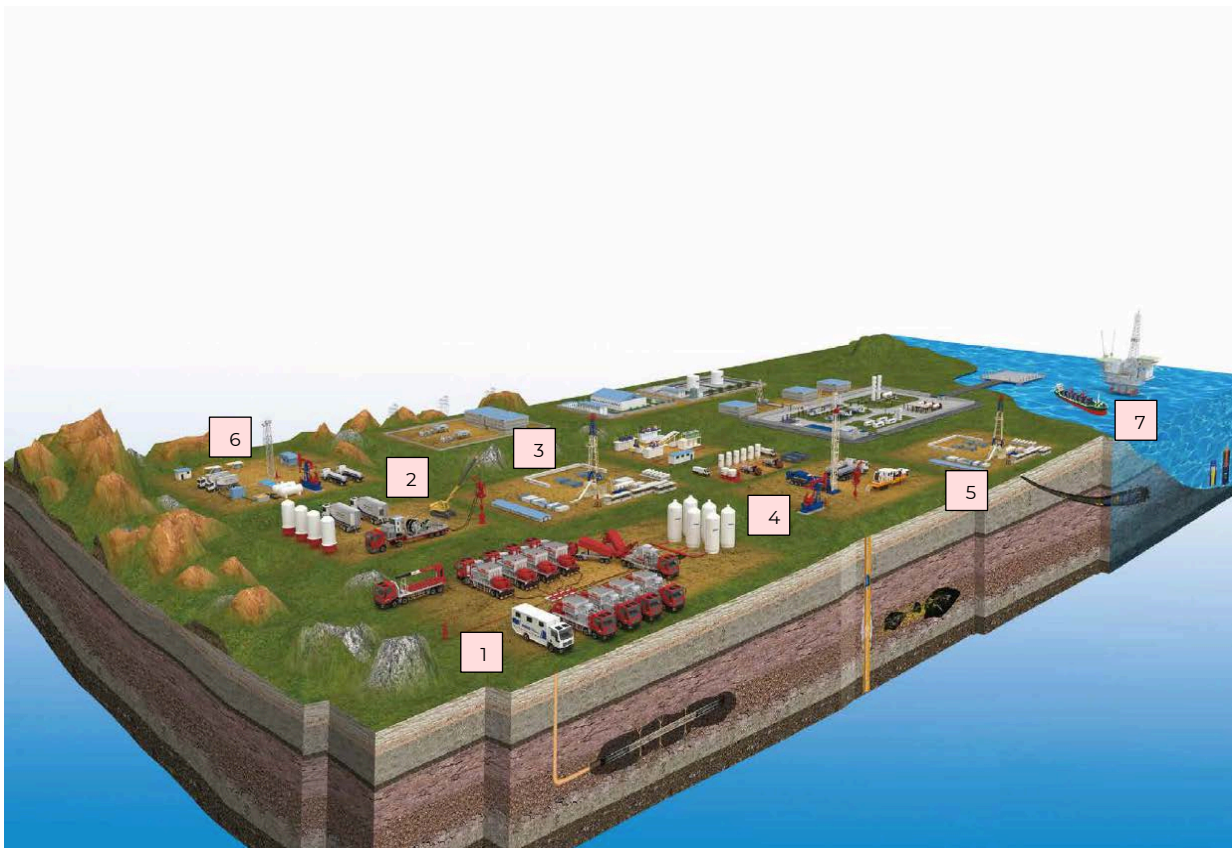

Denarius Pumping Services de Venezuela CA, through its commercial allies, manages the supply, trade and global logistics for a wide range of products, including raw materials, fuels and refined products such as gasoline, naphtha, diesel, fuel oil, pet coke, sulfur, and other products. As well as we enjoy an excellent reputation with suppliers worldwide and we have a capable team to attend to requests anywhere in the world.

We have allied offices strategically positioned to meet the needs of our clients and maintain excellent relationships with our network of suppliers growing.

This is possible thanks to the work and effort of our group of specialized and highly qualified professionals who drive the continuous development of numerous business relationships, always offering the best service at a commercial and operational level in an increasingly global and dynamic market.

DENARIUS SYSTEMATIC SOLUTIONS FOR OIL AND GAS FIELDS INTEGRATED SERVICE

1. Acidifying, Fracturing and Chemical Stimulation Solutions.
2. Coiled Tubing Solutions.
3. Integral Drilling and Completion Solutions.
4. Comprehensive Solutions for Primary and Secondary Cementation.
5. Well solutions of special configuration.
6. IPC solutions adapted to the requirements of maintenance and / or supply of materials and equipment, such as: Rotation Heads with Motor, Suction Rods, BCP Progressive Cavity Pumps, Variable Frequency Drives, Tubing, Nipple, Anchor, Bars , Cables among other components.
7. Commercial Support to Crude Oil Production Operators and refining networks through our contacts with experience in the area of commercialization and provision of product buyer clients.

OUR EQUIPMENTS

The Specialized Oil Well Services, require a correct Design of slurry and additives; High Performance Equipment and Qualified Technical Personnel.

DENARIUS PUMPING SERVICES DE VENEZUELA C.A. ("DPS"), is continuously developing and implementing new technological methods to offer added value to our clients. Our DPS Technical Team has evaluated all available resources from the most popular brands and designs in the oil industry; to provide both equipment that fits each type of work; as technology slurries that help optimize well results.

On Land or in the Lake, DENARIUS PUMPING SERVICES DE VENEZUELA C.A. ("DPS"), offers equipment that is adjusted to each type of job and that is designed to perform several jobs a day; mix and pump different fluids; and the versatility to reach difficult locations.

As industry and market requirements evolve, so do we. We have a wide fleet of equipment and tools, both for specialized services to oil wells that have been our main business, as well as we have additional equipment and tools for the transport of heavy cargo, welding, trailers, and auxiliary units.

OUR EXPERIENCE

Our Activities began in Venezuela in 1997, being in our beginnings a company dedicated to the services of pumping and gravel packing, both in the west and in the east of the country. From there, and thanks to the quality of our services and the demand for new services by our clients, in 2005 we incorporated cementing services to oil wells, matrix stimulations, fluid filtering, well testing and comprehensive engineering services. In 2015, we opened consulting and advisory operations in the energy sector in the United States. In 2017, as a result of so many years of experience in the oil industry, and thanks to the establishment of Strategic and Commercial Alliances with Manufacturers, Distributors and Purchasing Agents of the most recognized international and national brands in oil equipment, materials, supplies and tools, incorporated a procurement department allowing us to provide Equipment, Materials, Supplies and Tools for the Oil Industry with the highest standards of quality, service and highly competitive prices. In 2023, we incorporate surface oil well connection services.

In recent years Denarius Pumping Services de Venezuela C.A. (DPS) has intervened in more than 4000 Wells, providing gravel packing, stimulation, primary and secondary cementing services; as well as well testing both in the East and the West of Venezuela. Just as we have intervened with most of PDVSA's Joint Ventures, providing comprehensive services that include the procurement of equipment, machinery and materials of both national and foreign origin, including the processes of Purchase, Expedition, Inspection, Transportation, Customs, Nationalization and final delivery to the Client.

OUR CLIENTS

The evolution of Denarius Pumping Services de Venezuela C.A. (DPS) has been based on the close relationship we have established with our clients. Likewise, we have countless success stories that have generated trust and loyalty among those who prefer us. Among Our Main Clients We can list the following:

WHY DENARIUS?

“DPS distinguishes itself from the competition not only by having an attitude of “WE CAN DO IT” in the face of challenging projects, but also by the ability to make it happen and offer turnkey services with the highest quality standards, as well as offering short times response to our customers”

- DENARIUS has a positive Track-Record in providing oil well services in Venezuela, with more than 27 years of experience and which can be projected internationally.
- DENARIUS represents in the Venezuelan Oil Industry, a different and reliable alternative to the already known Transnational Companies (Halliburton, Schlumberger, Baker Hughes, BJ Services).
- DENARIUS has all the necessary licenses and permits to provide Oil Well Specialized Services in Venezuela to the State Oil Company (P.D.V.S.A.) and its subsidiaries or joint ventures, as well as to Private Sector Companies. DENARIUS has most of the National Contractor Service Codes for the Industry.
- DENARIUS has all the infrastructure; machinery and equipment necessary to provide Specialized Services to Oil and Gas Wells.
- DENARIUS has the human talent trained to perform oil well services with total professionalism and efficiency.
- DENARIUS has extensive experience in the development of technological solutions in drilling and slurry fluids.
- DENARIUS is one of the core service companies in the Venezuelan Oil Industry, and is one of the service companies that has contributed to the recovery, maintenance and increase of oil production of PDVSA, and its joint ventures.
- DENARIUS is a company in full operation and generating income in BsS and in foreign currency, in Venezuela. Currently, DENARIUS has contracts being executed and to be executed with PDVSA and its joint ventures.
- DENARIUS was awarded the OFAC license EO13850-2018-355769-1 for complying with all good practices for the execution of specialized service contracts for oil wells with the Venezuelan State Oil Company PDVSA and its joint companies. Which was renewed until 2025 under OFAC No. EO13850-2018-355769-4.
